1.9 Bid Opening and Summary Posting

Dane County Purchasing strives to complete a summary and post online the same day as the opening. The only information provided on the summary of an RFP is the name of each vendor submitting a proposal.

1.10 Multiple Proposals

Multiple proposals from a vendor will be permissible, however each proposal must conform fully to the requirements for proposal submission. Each such proposal must be clearly labeled as Proposal #1, Proposal #2, etc.

1.11 Proposal Organization and Format

Proposals shall be organized to comply with the section numbers and names as shown in Section 4.0: Proposal Preparation Requirements.

1.12 Designation of Confidential and Proprietary Information

All restrictions on the use of data contained within a proposal and all confidential information must be clearly stated on the Vendor Information Attachment under the “Designation of Confidential and Proprietary Information” section.

Proprietary information submitted in a proposal, or in response to the RFP, will be handled in accordance with the applicable Wisconsin State Statute(s).

Submitted pricing will always become public information when proposals are opened and therefore cannot be designated as confidential.

Other information cannot be kept confidential unless it is a trade secret. Trade secret is defined in Sect. 134(80)(1)(c) Wis. State Statutes, as follows: "Trade secret" means information, including a formula, pattern, compilation, program, device, method technique or process to which all of the following apply:

1. The information derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by other persons who can obtain economic value from its disclosure or use.
2. The information is the subject of efforts to maintain its secrecy that are reasonable under the circumstances.

To the extent permitted by law, it is the intention of Dane County to withhold the contents of the proposal from public view until such times as competitive or bargaining reasons no longer require non-disclosure, in the opinion of Dane County. At that time, all proposals will be available for review in accordance with the Wisconsin Open Records Law.

In the event the Designation of Confidentiality of this information is challenged, is required to provide legal counsel or other necessary assistance to defend the Designation of Confidentiality.

Failure to designate confidential and proprietary information within the Designation of Confidential and Proprietary Information section of the Vendor Information Attachment may mean that all information provided as part of the proposal response will be open to

examination or copying. The County considers other markings of confidential in the proposal document to be insufficient. The undersigned agrees to hold the County harmless for any damages arising out of the release of any material unless they are specifically identified within the Designation of Confidential and Proprietary Information section of the Vendor Information Attachment.

1.13 Cooperative Purchasing

Participating in cooperative purchasing gives a vendor the opportunity for additional sales without additional bidding. Municipalities use the service to expedite purchases. A “municipality” is defined as any county, city, village, town, school district, board of school directors, sewer district, drainage district, vocational, technical and adult education district, or any other public body having authority to award public contracts (s. 16.70(8), Wis. Stats.). Federally recognized Indian tribes and bands in this state may participate in cooperative purchasing with the state or any municipality under ss. 66.0301(1) and (20), Wis. Stats.

On the Vendor Information page, you will have the opportunity to participate in allowing other municipalities to piggyback this bid. Participation is not mandatory. A vendor’s decision on participating in this service has no effect on awarding the bid.

Dane County is not a party to these purchases or any dispute arising from these purchases and is not liable for delivery or payment of any of these purchases.

1.14 Vendor Registration Program:

All proposers are strongly encouraged to be a registered vendor with Dane County. Registering allows a vendor the opportunity to receive notifications for solicitations issued by the County and provides the County with up-to-date company contact information.

Provide your Dane County Vendor # in the Vendor Information section of the proposal submission packet.

For Non-Registered Vendors:

Complete vendor registration by visiting www.danepurchasing.com. On the top menu bar, click Vendor Registration and then click Create Vendor Account. You will receive an email confirmation once your account is created and again when your vendor registration is complete. Retain your user name/email address and password for ease of re-registration in future years. Within 2-4 days of completing the registration, a vendor number will be assigned and emailed to you.

For Registered Vendors:

Check to make sure your vendor information including commodity codes is up-to-date by signing into your account at www.danepurchasing.com. On the top menu bar, click Vendor Registration and then click Vendor Log In.

1.15 Local Purchasing Ordinance

Under County ordinances, a Local Vendor is defined as a supplier or provider of equipment, materials, supplies or services that has an established place of business within the County of Dane. An established place of business means a physical office, plant or other facility. A post office box address does not qualify a vendor as a Local Vendor.

County ordinance provides that a local vendor automatically receive five points toward the evaluation score.

Vendors located within the counties adjacent to Dane County (Columbia, Dodge, Green, Iowa, Jefferson, Rock, Sauk) automatically receive two points toward the evaluation score.

1.16 Dane County Sustainability Principles

On October 18, 2012, the Dane County Board of Supervisors adopted Resolution 103, 2012-2013 establishing the following sustainability principles for the county:

- Reduce and eventually eliminate Dane County government's contribution to fossil fuel dependence and to wasteful use of scarce metals and minerals;
- Reduce and eventually eliminate Dane County government's contribution to dependence upon persistent chemicals and wasteful use of synthetic substances;
- Reduce and eventually eliminate Dane County government's contribution to encroachment upon nature and harm to life-sustaining ecosystems (e.g., land, water, wildlife, forest, soil, ecosystems);
- Reduce and eventually eliminate Dane County government's contribution to conditions that undermine people's ability to meet their basic human needs.

1.17 Fair Labor Practice Certification

Dane County Ord. 25.09 (1) is as follows:

(28) BIDDER RESPONSIBILITY. (a) Any bid, application or proposal for any contract with the county, including public works contracts regulated under chapter 40, shall include a certification indicating whether the bidder has been found by the National Labor Relations Board (NLRB) or the Wisconsin Employment Relations Committee (WERC) to have violated any statute or regulation regarding labor standards or relations within the last seven years. The purchasing manager shall investigate any such finding and make a recommendation to the committee, which shall determine whether the conduct resulting in the finding affects the bidder's responsibility to perform the contract.

If you indicated that you have been found by the NLRB or WERC to have such a violation, you must include a copy of any relevant information regarding such violation with your proposal, bid or application.

Additional information can be found using the following links: www.nlrb.gov and <http://werc.wi.gov>.

SECTION 2 – PROPOSAL SELECTION AND AWARD PROCESS

2.0 PROPOSAL SELECTION AND AWARD PROCESS

2.1 Preliminary Evaluation

The proposals will first be reviewed to determine if requirements in Section 1 and Section 4 are met. Failure to meet mandatory requirements will result in the proposal being rejected. In the event that all vendors do not meet one or more of the mandatory requirements, the County reserves the right to continue the evaluation of the proposals and to select the proposal which most closely meets the requirements specified in this RFP.

2.2 Proposal Scoring

Accepted proposals will be reviewed by an evaluation team and scored against the stated criteria in Section 4. This scoring will determine the ranking of vendors based upon their written proposals. If the team determines that it is in the best interest of the County to require oral presentations, the highest-ranking vendors will be invited to make such presentations. Those vendors that participate in the interview process will then be scored, and the final ranking will be made based upon those scores.

2.3 Oral Presentations/Interview

Top ranked selected proposers may be required to make oral interview presentations and/or site visits to supplement their proposals, if requested by the County. The County will make every reasonable attempt to schedule each presentation at a time and location that is agreeable to the proposer. Failure of a proposer to conduct a presentation to the County on the date scheduled may result in rejection of the vendor's proposal.

2.4 Evaluation Criteria

The proposals will be scored using the following criteria:

Proposal Requirements	Percent
Organizational Capabilities & Experience (Section 4.4)	20%
Staff Capabilities & Experience (Section 4.5)	20%
Servicing Federal Signal Equipment (Section 4.6)	10%
Servicing American Signal Equipment (Section 4.7)	10%
Servicing ATI Systems Equipment (Section 4.8)	10%
Service Response Requirements (Section 4.9)	10%
Cost	Percent
Cost (Section 5)	20%
Total	100%

SECTION 2 – PROPOSAL SELECTION AND AWARD PROCESS

2.5 Right to Reject Proposals and Negotiate Contract Terms

The County reserves the right to reject any and all proposals and to negotiate the terms of the contract, including the award amount, with the selected proposer prior to entering into a contract. If contract negotiations cannot be concluded successfully with the highest scoring proposer, the County may negotiate a contract with the next highest scoring proposer.

2.6 Award and Final Offers

The award will be granted in one of two ways. The award may be granted to the highest scoring responsive and responsible proposer. Alternatively, the highest scoring proposer or proposers may be requested to submit final and best offers. If final and best offers are requested, they will be evaluated against the stated criteria, scored and ranked. The award will then be granted to the highest scoring proposer.

2.7 Notification of Intent to Award

As a courtesy, the County may send a notification of award memo to responding vendors at the time of the award.

3.2 Project Overview

Dane County maintains outdoor warning sirens located throughout the County. The County also maintains a county wide control system for status monitoring, activation, and testing of all county-owned sirens and additional municipal-owned sirens within the County. The contract will be for preventive maintenance and repair services of all of the County maintained sirens. The contract will also include maintenance and repair of the control components of all sirens (County and municipal-owned) in the County system, and will include establishing a regular schedule of preventative maintenance for all siren sites within Dane County.

The contract will be administered for Dane County Emergency Management by Carrie Meier, Assistant Director of Emergency Management and shall include all labor, equipment, tools, and materials for electrical and mechanical maintenance and repair of the sirens listed in Attachment B – Siren Location List.

3.3 Current Operations

Attachment B – Siren Location List provides a listing of the location, type, model, and age of each siren unit in the Dane County system.

Dane County utilizes a siren monitoring and control system provided by Acoustic Technology, Inc. (ATI Systems). This system is proprietary to ATI and control system schematics will not be provided by Dane County. Qualified vendors are expected to be trained and familiar with the operation and maintenance of ATI Systems equipment or receive training on ATI systems directly from ATI upon award of contract.

3.4 Objectives

Dane County residents demand a high degree of reliability from the County's outdoor warning siren system. Consequently, the County expects a high degree of competency and reliability from its siren service and repair provider. The selected vendor will be expected to provide an adequate number of competent, properly trained personnel with sufficient supervision to provide the required services at all times.

Through normal daily and monthly testing, Emergency Management staff regularly become aware of siren problems that must be addressed in order to assure the operational readiness of the unit. The Department expects next-day service from the contractor to, at a minimum, investigate the cause of the problem and assess the repairs needed.

SECTION 3 – PROJECT OVERVIEW AND SCOPE OF SERVICES

Emergency repair work may also be necessary. Emergency repairs may include restoring a failed siren to operational status or manually shutting-down a self-activated siren. It is essential that the contractor be able to respond to any siren site in Dane County within a maximum of four (4) hours or less in emergency situations.

All maintenance and repair work, emergency or routine, will be performed at the direction of Dane County Emergency Management.

3.5 Services Needed

The Vendor will be responsible for all electrical and mechanical troubleshooting, repair, and testing necessary to maintain all of the outdoor warning siren types and models included in Dane County's system.

The equipment to be maintained and repaired includes all components of rotating and stationary sirens including, but not limited to: electric motors, batteries, battery chargers, motor control contactors, integrated circuit boards, radios, antennas, remote terminal units, status sensors and relays, power supplies, metered and unmetered electrical services and service disconnects, cabinets, and utility poles. Due to the variety of siren types, the configuration may vary from site to site. Open source schematics and manuals will be provided by Dane County as available. The siren manufacturers' proprietary wiring diagrams or schematics will not be provided by Dane County and, if needed, must be obtained directly from the manufacturer.

Repair work shall involve service calls to siren locations at the direction of the Department of Emergency Management. The Vendor will also be responsible for troubleshooting and repair of the mobile radios and siren monitoring units that make up the on-site components of County's siren control system. Maintenance of the central control system is beyond the scope of this contract.

All work listed shall be performed in a thorough and professional manner and in accordance with accepted industry methods and practices. All work shall be in strict compliance with all local and state codes, ordinances, laws, and policies. All tools, equipment, and replacement parts shall be provided by the Vendor. Replacement parts shall meet all applicable manufacturer and regulatory standards.

Include all training and certifications that are held pertaining to the services, manufacturers and products contained within this proposal.

The County expects the vendor to be available the first Thursday of those months to address any issues with the system. With the exception of the County-specified radio control equipment, the County coordinates, but does not fund the maintenance and repair of municipal-owned sirens. The actual arrangements for maintenance and repair of municipal-owned sirens will have to be arranged between the Vendor and the local government/municipality. **Confirm this by agreeing to furnish the commodities or services of this bid to other municipalities in the Cooperative Purchasing section of Section 6 – Attachment A – Vendor Information.**
